

# Volunteering

Auxiliary members complete all the same steps as general volunteers do, but it's optional for volunteers to join the auxiliary. Membership dues are \$15 for a year, and it includes a free lunch from the hospital cafeteria at each meeting.

# Auxiliary

The Auxiliary meets once a month to discuss projects and get timely updates from hospital leadership. This team also decides how the proceeds from the gift shop are spent. Past donations include:

- Serenity garden at Entrance A
- Picnic tables & benches on hospital campus
- Clothing for patients in need
- Holiday care packages for patients

Updated 1/2026

# Why Join?

South Peninsula Hospital Auxiliary is a dedicated group of volunteers who make a lasting impact throughout the hospital. Their generosity and care help create a better experience for our patients, residents, staff, and visitors.

# Opportunities

## Gift Shop

Operating the gift shop is the primary responsibility of the Auxiliary. This includes taking payments, organizing inventory, creating displays, and delivering gifts to patient rooms.

## Event Support

From community conversations to school tours, Auxiliary volunteers help represent the hospital and facilitate community relationships.

## Patient Companion

Auxiliary volunteers visit with acute care patients, providing support and companionship over a lunch, a stroll around the hospital, or a chat.

# How to Join

If you're not already a volunteer, please complete the general volunteer application packet, which can be found at [www.sphosp.org](http://www.sphosp.org). Printed copies are also available at the Auxiliary Gift Shop and at registration.

Once you have completed this process or if you're already a volunteer, please reach out to [marketing@sphosp.org](mailto:marketing@sphosp.org), who will connect you with Auxiliary leadership.

There are multiple requirements and meetings to complete before you are able to volunteer and join the Auxiliary, but all are necessary to maintain a high level of patient and resident care and safety.
